RE: **40 Angels from the Adopt An Angel Tree Program**

Dear Suana:

On behalf of those we serve, I am writing this letter to express my sincere appreciation for the support that American Consulting Engineers shows each year, to our Angel Tree/Christmas Assistance Program.

I could not help but notice that last year you had more employees and adopted 35 Angels. This year you have less employees, I believe around 45 and you adopted more Angels this year. That is very commendable of your staff. Your kindness and generosity shown to these 40 children is so very much appreciated. We hope you know how special your staff is. Without the assistance of American Consulting Engineers, these children would not have had a present to open on Christmas morning. See, one person, can make a difference and you did.

Our very existence depends on the concern of individuals who lend a helping hand to those in need. It is only through your caring, kindness and generosity that we are able to meet the needs of those less fortunate throughout our community.

Once again, Thank you. Your sharing shows that you care. For this, we are truly grateful.

Sincerely I remain,

Jeanne Rae Coulter
