

Client	Project Name	Location	# of Towers	Total MW	Role
IPC ENERGY	Sydenham Wind Farm	Ontario	75	150-200	Prepared a Planning Justification Report to accompany Zoning and Official Plan Amendment applications. Amendments included provisions for town-wide changes to accommodate small and commercial wind facilities as well as site specific rezoning of over 2,400 ha (6,000 acres) to facilitate the development of the Sydenham Wind Farm. Public consultation included coordinating and participating in two public open houses and presentations to municipal council. Also spear-headed consultation with the MNR, MOE, MMAH, Conservation Authority and County Planning Staff. Conducted initial environmental constraints analysis and digital mapping for the project area, prepared a municipal planning feasibility report, and facilitated several meetings with stakeholders during the project feasibility phase. Prepared a draft public consultation plan and a notice of commencement for the preparation of an Environmental Screening Report under the Environmental Assessment Act.
IPC ENERGY	White Pines Wind Farm	South Marysburgh, ON	75	150-200	Conducted initial environmental constraints analysis and digital mapping for the project area, prepared a municipal planning feasibility report, and facilitated several meetings with stakeholders during the project feasibility phase. Prepared a public consultation plan and a notice of commencement for the preparation of an Environmental Screening Report under the Environmental Assessment Act.
UPSTATE NY POWER	Hounsfield Wind Farm	Hounsfield, NY	84	252	Project Management and director of all permitting logistics and design of the project which involves 84 towers on an island in Lake Ontario, 9 miles of underwater transmission line, and 45 miles of overland transmission line spanning two counties in three towns. GIS and mapping services for facility siting.
INVENERGY	High Sheldon	Sheldon, NY	77	116	Lead EIS effort, primary author of EIS documents, coordination with the Town engineering department and legal counsel, agency consultation with the DEC, PSC, Native Nations, and Municipal agencies, attended public forums with Town Council
INVENERGY	Orangeville	Orangeville, NY	60-80	120-200	Feasibility analysis and GIS and mapping support
INVENERGY	Moresville	Roxbury & Stamford, NY	32	50	GIS Services, support for EIS, preliminary design for access roads (considerable topographic relief)
INVENERGY	Numerous Projects	14 States	TBD	TBD	Strategic GIS Services to facilitate preliminary project siting including the development of customized wind mapping applications
ECOGEN	Prattsburgh / Italy Wind Farm	Prattsburgh & Italy, NY	34	80	Project Management for siting and design, managed the completion of the EIS process, coordinated and managed wetland delineation of 5,000 acres, visual simulations, primary interface between lead agency and developer, GIS services to support land leasing and acquisition management, project siting, constraints analysis for final design, prepared zoning applications for substation and towers, work with legal counsel, final impact analysis for supplemental EIS, coordinated Section 106 process and native consultation, managing all subcontractors to complete final design and permit applications, Phase 1 ESA for due diligence to facilitate property acquisition
IPC ENERGY	Numerous Projects	Ontario, Province-Wide	TBD	TBD	Strategic GIS Services to facilitate preliminary project siting including the development of customized wind mapping applications
IPC ENERGY	Numerous Projects	Ontario, Province-Wide	TBD	TBD	Site mapping services and field verification to permit facility siting for eight wind energy projects up to 30 MW
IPC ENERGY	Confidential Site	Ontario	5	10	Prepared a Municipal Planning Feasibility Report and preliminary environmental screening to determine the most prudent approach to the development process.
IPC ENERGY	Confidential Site	Ontario	5-10	19.5	Prepared a Municipal Planning Feasibility Report and preliminary environmental screening to determine the most prudent approach to the development process for a site with relevant planning issues associated with the Greenbelt Plan, Oak Ridges Moraine Conservation Plan and the Growth Plan for the Greater Golden Horseshoe Planning Documents.
IPC ENERGY	Confidential Site	Ontario	5-10	19.5	Prepared a Municipal Planning Feasibility Report and preliminary environmental screening to determine the most prudent approach to the development process.
IPC ENERGY	Confidential Site	Ontario	5	10	Prepared a Municipal Planning Feasibility Report and preliminary environmental screening to determine the most prudent approach to the development process.
IPC ENERGY	Miscellaneous General Services	Ontario	N/A	N/A	Development of a corporate logo and various visual simulation services for proposed wind farms and mitigation projects
